Portfolio: https://rdemarqui.github.io
e-mail: rildo17@gmail.com
São Paulo, São Paulo, Brasil

Data Scientist with a degree in Electrical Engineering, an MBA in Business Management, and a specialization in Artificial Intelligence.

Professional with 10+ years of experience in large-scale analytics, developing machine learning and AI-driven solutions to support strategic decision-making across customer experience, operations, and business performance. Experienced in predictive modeling, causal inference, and large-scale data analysis (60M+ customers), partnering with technical and business leaders to translate complex data into actionable insights.

Tools/Skills: Large Language Models (LLM), Machine Learning stack in Python (pandas, matplotlib, scikit-learn, TensorFlow, etc.), SQL, Git, Power BI, GCP (Google Colab, BigQuery, and Vertex AI), and Jupyter Notebook, among others.

Core Skills

Artificial Intelligence, Data Visualization, Business Analytics, Customer Experience

Education

Escola Politécnica da USP
Mar 2020 - Nov 2021
Specialization Artificial Intelligence

Ibmec
Jan 2012 - Dec 2014
MBA Business Management

Centro Universitário Radial
Jan 2003 - Dec 2007
Graduate Electrical Engineering

Languages

Portuguese (Native)
English (Advanced)
Spanish (Intermediate)

Certificates

AWS Certified AI Practitioner
Amazon Web Services (AWS)

Six Sigma Yellow Belt
TIM Brasil

Data Scientist Training
Data Science Academy

Work Experience

Specialist
Nov 2019 - Present
TIM Brasil | São Paulo, Brasil

- Applied an open-source SLM model (Mistral) to automatically classify customer complaints, streamlining the handling of technical requests by the engineering team.
- Developed time series forecasting models to support nationwide corrective maintenance planning, improving operational decision-making.
- Developed predictive and explainable (SHAP) classification models to identify drivers of customer dissatisfaction and complaint risk (including ANATEL), enabling proactive retention strategies and improving NPS.
- Applied causal inference techniques (Propensity Score) to evaluate the impact of a tool designed to reduce the recurrence of complaints in human-assisted interactions.
- Implemented a speech-to-text pipeline using Whisper to analyze customer service recordings and identify patterns and root causes of customer complaints with NLP.
- Developed interactive Power BI dashboards and executive presentations for leadership, fostering a data-driven decision-making culture.

Senior Engineer
Nov 2014 - Nov 2019
TIM Brasil | São Paulo, Brasil

- Processing and analysis of large volumes of structured and unstructured data, covering over 60 million customers and billions of events.
- End-to-end monitoring of the customer journey during SIM card activation, including analysis of behavioral data and equipment logs.
- Development and maintenance of dashboards with performance metrics and business indicators to support decision-making by technical and executive teams.
- Monitoring and analysis of voice and data network performance indicators across GSM, UMTS, and LTE technologies.
- Automation of processes and operational workflows, reducing manual tasks and increasing monitoring efficiency.
- Definition and tracking of key performance indicators (KPIs) for continuous evaluation of operational results.

Engineer
Jan 2009 - Nov 2014

TIM Brasil | Rio de Janeiro, Brasil

- Development of capacity and investment scenarios based on traffic forecasts to support network expansion strategy and capital allocation.
- Responsible for the three-year budget planning of the Access Network, representing approximately 20% of the company's CAPEX.
- Preparation of technical and economic reports and presentations for the executive board and investment committee.
- Contribution to the creation and review of financial forecasts, ensuring alignment between technical planning and corporate goals.

Junior Engineer
Apr 2008 - Dec 2008

TIM Brasil | São Paulo, Brasil

Clerk Assistant II
Apr 2004 - Mar 2008

TIM Brasil | São Paulo, Brasil

Intern
Apr 2002 - Mar 2004

TIM Brasil | São Paulo, Brasil

Clerk Assistant I
May 2000 - Jul 2001

Ericsson | São Paulo, Brasil
